OUR STORY

Nestled in the tranquil beauty of Mermaid Cove, Newfoundland, my journey started four years ago with a love for lighting candles to bring focus and serenity to my daily routine. I established The Witch + The Wick by Tara Kinden Co. to handcraft each candle, ensuring they resonate with the unique energy of every zodiac sign.

Drawing inspiration from astrology and a dedication to creating healthier, fragrance-free items, I utilize premium coconut soy wax and carefully chosen gemstones to align with the energy of each zodiac sign. My candles undergo a unique clearing process involving sage, palo santo, and frequency vibrations, making them pure vessels ready to be infused with your energy.

Launching my business just before the pandemic, I witnessed a surge in sales as individuals sought to deepen their self-awareness. As an astrologer, I select stones to enhance the positive traits of each sign and provide support during challenges. My cleansing ritual involves clearing residual energies with white buffalo sage, inviting joy and potential with sweetgrass, and utilizing Venus tuning forks for a frequency cleanse.

Operating from my seaside studio with an ocean view, I've embedded crystals and powerful intentions into the walls, creating an energy center that fuels creativity and gives my brand a vibrant atmosphere. Customers consistently share that my candles bring peace, love, and a zest for life into their homes, assisting them in setting positive intentions for the upcoming year.

Looking forward, I plan to expand into new product lines inspired by human design and offer additional educational courses alongside my offerings. At Tara Kinden Co., I provide luxury, warmth, and self-discovery to enrich your daily life.
